RE: Fiscal Year 2016 PEAK Annual Report

The following information is for the reporting period beginning July 1, 2015 and ending June 30, 2016 (Fiscal Year 2016), and is provided to satisfy the annual reporting requirements of K.S.A. 74-50,216 in the Promoting Employment Across Kansas (PEAK) Act.

In 2009, Senate Bill 97 was passed and signed into law creating the PEAK program effective July 1, 2009. Companies that were relocating jobs to Kansas from out of state could retain 95 percent of the withholding taxes generated by the new employees that were paid wages at or above the county wage standard. Legislative changes in 2010 and 2011 broadened the program to allow companies to qualify that were locating a new business operation or function in Kansas, and to allow existing Kansas companies to begin participating in 2012. Additionally, the use of PEAK to retain jobs in Kansas began January 1, 2013.

During FY 2016, forty-four (44) companies signed new agreements, projecting the hiring or retention of 2,801 PEAK Jobs, with a direct annual payroll of \$152.9 million and \$176.1 million in capital investment expenditures. A total of 269 active agreements were required to submit quarterly reports. Of the 269, thirteen (13) companies terminated their agreement during the period. The remaining 256 active agreements projected the hiring or retention of 28,353 PEAK Jobs, with an estimated \$1.8 billion in direct annual payroll and \$2.4 billion in capital investment expenditures.

In FY 2016, companies reported the following results:

- 15,476 PEAK Jobs were created or retained, with an average hourly wage of \$40.27.
- \$1.2 billion in total payroll generated \$42.3 million in Kansas Individual Income Tax Withholding.
- Companies retained \$30.6 million or 72.3%, of the withholding from PEAK Employees that received wages at or above the county wage standard (known as PEAK-Eligible Employees).
- \$11.7 million, or 27.7%, of the withholding was remitted to Kansas as the required five percent for PEAK-Eligible Employees and for PEAK Employees whose individual wages did not meet the county wage standard.
- Using industry standard multipliers from the U.S. Department of Commerce's Bureau of Economic Analysis, 20,202 indirect jobs and \$983.4 million of indirect income are estimated to have resulted from the PEAK Jobs and wages reported in FY 2016.

- The return on investment (ROI) on the \$30.6 million withholding retained by PEAK participant companies in FY 2016 is estimated to be over \$1.7 billion*, including over \$134.6 million** in state and local tax revenue, and over \$29.3 billion*** in growth to the Kansas economy.

* \$1 PEAK Investment = \$57 Total ROI (Source: Legislative Post Audit Report R-14-011 December 2014)

** \$1 PEAK Investment = \$4.40 ROI in State & Local Tax Revenue (Source: Legislative Post Audit Report R-14-011 December 2014)

*** \$1 PEAK Investment = \$960 ROI in Kansas Economy Growth (Source: Docking Institute of Public Affairs PEAK Program Evaluation & Economic Impact Analysis August 2013)

Table 1 lists active and/or signed agreements in FY 2016. An asterisk indicates that the agreement was signed in FY 2016. A double asterisk indicates that the agreement was terminated in FY 2016.
