# Introduction

Governor Kathleen Sebelius' office administers the Federal S.T.O.P. Violence Against Women Act grant program and provides grant funds to the Kansas Bureau of Investigation (KBI) to facilitate the data entry of the Kansas Standard Offense Reports and the Kansas Standard Arrest Reports relating to crimes of domestic violence and rape. This report is based on 2007 statistical data as submitted by Kansas law enforcement agencies. This report is intended to assist agencies in strengthening the criminal justice system which holds offenders accountable for their actions and provides resources to help respond to these crimes.

The KBI compiled the following report on domestic violence and rape statistics for 2007. The data represents the truest and most accurate information available, reflecting domestic violence and rape as reported by law enforcement agencies through the Kansas Incident Based Reporting System (KIBRS). This system enables crime information from standard offense and arrest reports to be obtained manually, electronically and directly from Kansas law enforcement agencies.

This report does not claim to represent all domestic violence incidents and rapes committed throughout the State of Kansas, as it is dependent on victims to report crimes to law enforcement agencies and for these agencies to submit incident reports to the KBI. Only domestic violence and rape incident and arrest reports that were submitted to the KBI were counted for this report.

Since 1992, all Kansas law enforcement agencies have been required to make mandatory arrests for domestic violence incidents where there is probable cause that a crime was committed. Officers also are required to fill out a KIBRS report for every domestic violence incident, whether or not an arrest was made. Each law enforcement agency is required to have a written definition and policy describing its protocol for addressing domestic violence incidents. Some law enforcement agencies have accepted a narrow definition of domestic violence and, therefore, incidents and arrests may be lower than for agencies with a broader definition. This will cause variations in reporting types and numbers of incidents.

## **OFFENSES**

The domestic violence section of this report includes, but is not limited to, offenses that involve: murder, assault, aggravated assault, assault on a law enforcement officer, aggravated assault on a law enforcement officer, battery, aggravated battery, battery on a law enforcement officer, aggravated battery on a law enforcement officer, rape, theft, unlawful deprivation of property, burglary and aggravated burglary. The statutes listed in the report may not include all domestic violence related crimes, but do include the majority.

## **DUAL ARRESTS**

The domestic violence section of the report includes “dual arrests” which refers to cases where more than one person was arrested for the same domestic violence incident. In a number of cases, this is the result of an incident where the primary aggressor cannot be determined so both parties involved are arrested. There also may be a number of cases in which multiple arrests were made at the incident because a third party may have intervened. Because of this “dual arrest” procedure, some agencies have reported more arrests than incidents in a particular year. By factoring in dual arrests, a more accurate arrest percentage can be reported.

## **TABLES AND GRAPHS**

Several tables and graphs regarding domestic violence and rape crimes, as well as victim and offenders, are included in this report. Some domestic violence and rape incidents may have had more than one offense, victim, offender, type of weapon, or victim-offender relationship. Some KIBRS reports were not filled out completely, making detailed information on the incident unknown or unavailable. With this in mind, not all totals for each section will always match.

In order to present the most accurate representation of domestic violence and rape, without misinterpreting the data, the information for this report was recorded as it was reported to the KBI by law enforcement agencies as of April 30, 2008.

Hopefully law enforcement agencies, domestic violence programs and sexual assault centers across the State of Kansas will work together to develop effective policies, procedures and training activities which will assist all those involved in responding to the crimes of domestic violence and rape.

## **AGENCIES NOT REPORTING COMPLETE DATA**

If an agency does not submit any data a “DNR” is indicated. If an agency does not report complete data, the data is included but the agency is flagged to recognize this discrepancy. This change will more accurately depict the true arrest rates within each agency and county. Data is listed as questionable when a large decline in submissions occurs without confirmation by the local agency.

# Domestic Violence

In 1991, the Kansas Legislature enacted mandates that required all Kansas law enforcement agencies to adopt written policies regarding their procedures for responding to domestic violence incidents within their jurisdictions. Each law enforcement policy must include a directive that officers who have probable cause at a domestic violence incident “shall make an arrest.” All standard offense reports were required to be submitted to the Kansas Bureau of Investigation (KBI) beginning in January 1992, whether or not an arrest was made. Since this legislative action, Kansas law enforcement agencies have increased arrest rates for domestic violence related crimes from 38.4 percent in 1992 to 50.9 percent in 2007.

Victim and offender characteristics for domestic violence have not changed drastically. The average victim is still typically a white female between the ages of 20 and 24. The average offender is a white male between the ages of 20 and 24 and is most often the spouse or boyfriend/girlfriend of the victim. Saturdays and Sundays are the two days where domestic violence incidents are most likely to occur. While most incidents occur between the hours of midnight and 4:00 a.m, recent years are showing a significant increase between 10:00 a.m. and noon.

Domestic violence may be defined as any verbal and/or physical abuse ranging from simple assault to murder. More than 56 percent of all domestic violence incidents involve the criminal offense of battery. Battery is defined by as “*intentionally or recklessly causing bodily harm to another person or intentionally causing physical contact with another person when done in a rude, insulting or angry manner.*” In 2001, the Kansas Legislature enacted the “*domestic battery*” statute which is “(1) *intentionally or recklessly causing bodily harm by a family or household member against a family or household member; or (2) intentionally causing physical contact with a family or household member by a family or household member when done in a rude, insulting or angry manner.*”

Most domestic violence offenders use some type of bodily force against their victims with the weapon of choice being hands, fists, or feet. An incident of domestic violence most often occurs at home. Almost half of all victims receive physical injuries severe enough to cause visible abrasions.

# KANSAS DOMESTIC VIOLENCE INCIDENT AND ARREST TREND 1992 - 2007

YEAR	NUMBER OF INCIDENTS	PERCENT OF CHANGE	INCIDENTS PER / 1,000 POPULATION	NUMBER OF ARRESTS

2007	22,429	-2.8%	8.1	11,423

# KANSAS DOMESTIC VIOLENCE HOMICIDE TREND 1992 - 2007

Since 1992, Kansas law enforcement agencies have been required to submit a standard offense report to the KBI on domestic violence incidents whether or not an arrest was made. The intent of the law was to collect information and respond to domestic violence among adult intimates and adult family members. The following chart indicates the number of domestic violence homicides that occurred in Kansas between 1992 - 2007. The victims included are spouses, former spouses, persons in intimate relationships whether on-going or in the past, and persons 18 years of age or older who are blood or step related to one another.

Children who have been killed in a domestic violence situation are not reported in this statistical information. Cases involving children are reviewed by the State Child Death Review Board (SCDRB) and statistical information can be found in the SCDRB report at [www.ksag.org](http://www.ksag.org).

Year	DV Homicides	Percent of Change	Incidents Per / 1,000 Population	Total Homicides	% DV Related
1992	27	N/A	0.01	NA	NA

**Total Victims 17**

**Total Homicides reported in Kansas for 2007: 115**

**NOTES:**

- 1) Children who have been killed in a domestic violence situation are not reported in this statistical information. Cases involving children are reviewed by the State Child Death Review Board (SCDRB) and statistical information can be found in the SCDRB report at [www.ksag.org](http://www.ksag.org)
- 2) Hispanic is actually an ethnicity rather than a race. It is used as race in this report to better show the demographics of those persons involved

# Domestic Violence Crime Clock 2007

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incident. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

1) There are instances where multiple statutes are listed as one domestic incident.

2) Homicide that involve victims under 18 years old are included in this number

3) Multiple forgeries and criminal use of credit cards each count as a separate incident.

# Protection from Abuse Act

## K.S.A. 60-3101 through 60-3111

The Kansas Legislature created the Protection from Abuse Act (PFA) in 1979. According to the statute, *“this act shall be liberally construed to promote the protection of victims of domestic violence from bodily injury or threats of bodily injury and to facilitate access to judicial protection for the victims, whether represented by counsel or proceeding pro se.”*

A protection order is a court order for the purpose of preventing further violent or threatening behavior. The PFA instructs a specific individual to refrain from having contact with another individual. Any district court shall have jurisdiction over the proceedings in obtaining an order. A person who is seeking relief under this act may obtain a petition from the clerk of the district court or from a domestic violence program.

A person seeking relief under this act must have lived with the abuser either presently or in the past or have a child in common. A parent or an adult residing with a minor child may seek a petition on behalf of the minor child. As of July 1, 2002, persons in dating relationships also can apply for a protection order. Once an order is filed with the court a temporary order is issued and a hearing is set within 20 days. The final order can be issued for up to one year. No more than two orders can be filed within one year.

The 2006 Kansas Legislature passed two bills designed to assist those in need of protective orders. The first would fill the gap of previous statutes by making contact while being incarcerated a violation of the PFA Act. The second, took effect January 1, 2007, and allows persons attempting to escape a domestic violence situation to obtain a confidential address from the Secretary of State’s office to use as a substitute legal mailing address.

All temporary, amended and final PFA orders are entered into the National Crime Information Center (NCIC) Protection Order File. This database is another tool to assist law enforcement officers in verifying the existence of an order quickly in order to provide better enforcement. However, an order does not need to be entered into NCIC in order to be enforced.

The following information reflects the number of PFA orders filed with Kansas district courts and reported to the Kansas Office of Judicial Administration.

# Protection from Abuse Filings 1992-2007

YEAR	FILINGS	CHANGE
1992	4,528	
1993	5,437	20.08%

# Protection from Stalking Act

## K.S.A. 60-31a01 through 60-31a09

The Kansas Legislature created the Protection from Stalking Act (PSA) during the 2002 session. The statute is to be “*liberally construed to protect victims of stalking and to facilitate access to judicial protection for stalking victims, whether represented by counsel or proceedings pro se.*” The PSA allows the court to refrain a defendant from harassing, telephoning, contacting or otherwise communicating with the victim. A Protection From Stalking Order is a court order for the purpose of preventing stalking behavior against the victim. A person seeking relief under this act may obtain an order from the clerk of the district court in the county where the stalking occurred. Once an order is filed with the court a temporary order is issued and a hearing is set within 20 days. A final order may be issued for a period of one year. However, “*upon motion by the plaintiff, such a period may be extended for an additional year.*”

The following information reports the number of Protection from Stalking orders filed with Kansas district courts and reported to the Kansas Office of Judicial Administration.

# Protection From Stalking Orders Number of Court Filings 2002-2007

## **STALKING**

### **K.S.A. 21-3438**

Stalking is unlike any other person crime not only in its general characteristics, but also in the impact it has on the daily lives of victims. Many people do not take the crime of stalking seriously, while others blame the victim. Stalking is an exercise of control and power over another individual or group. The variation in stalking behavior ranges from hang-up phone calls to more direct threats toward a victim. The likelihood of injury increases when the stalking behavior escalates over time.

Stalking is defined in K.S.A. 21-3438 as *“an intentional, malicious and repeated following or harassment of another person and making a credible threat with the intent to place such person in reasonable fear for such person’s safety.”*

# RAPE

## K.S.A. 21-3502

The Kansas statutory definition of rape is accepted and interpreted by all law enforcement agencies across the state. The statute does not distinguish the gender of a rape victim, therefore, rapes involving both male and female victims were reported by agencies.

K.S.A. 21-3502, (a) Rape is:

- (1) Sexual intercourse with a person who does not consent to the sexual intercourse under any of the following circumstances:
  - (A) When the victim is overcome by force or fear;
  - (B) When the victim is unconscious or physically powerless; or
  - (C) When the victim is incapable of giving consent because of mental deficiency or disease, or when the victim is incapable of giving consent because of the effect of any alcoholic liquor, narcotic drug or other substance, which condition was known by the offender or was reasonably apparent to the offender; or
- (2) Sexual intercourse with a child who is under 14 years of age.
- (3) Sexual intercourse with a victim when the victim's consent was obtained through a knowing misrepresentation made by the offender that the sexual intercourse was medically or therapeutically necessary procedure; or
- (4) Sexual intercourse with a victim when the victim's consent was obtained through a knowing misrepresentation made by the offender that the sexual intercourse was a legally required procedure within the scope of the offender's authority.

The number of rapes reported to Kansas law enforcement decreased 0.6 percent in 2007 from the number reported in 2006. Since 1996 the number of rapes reported to law enforcement has increased 7.42 percent. During 2007, approximately 21.4 percent of all reported rape offenders in Kansas were arrested, up slightly from 21.3 percent that were reported as arrested for the same time period in 2006. This is a very small portion of rape offenders when one considers that approximately 76.8 percent of the offenders were known to the victim.

Of the rape incidents reported to law enforcement agencies, the rape victim is usually a white female less than 25 years of age. The rape offender is most often a white male between the ages of 15 and 24. The crime of rape most frequently occurs during the weekend. Most rapes occur between the hours of midnight and 2:00 a.m. More than 30 percent of all rape offenders are reported to be under the influence of alcohol and/or drugs during the commission of the crime.

# Rape Trends 1992-2007

Year	Number	Percent of Change	Incidents Per 1,000 Population
1992	1,043	-7.0 %	0.41
1993	1,059	1.5 %	0.41
1994	1,055	-0.4 %	0.41
1995	1,088	3.1 %	0.42
1996	1,146	5.3 %	0.44
1997	1,192	4.0 %	0.45
1998	1,136	-4.7 %	0.43
1999	1,122	-1.2 %	0.42
2000	1,100	-2.0 %	0.41
2001*	988	-10.2 %	0.36
2002	1,157	17.1 %	0.43
2003	1,133	-2.1 %	0.42
2004	1,153	1.8 %	0.43
2005	1,099	-4.7 %	0.40
2006	1,238	12.6 %	0.45
2007	1,231	-0.6 %	0.45

\* No information was received from Lawrence Police Department, Kansas City Police Department, or the Topeka Police Department.

# Rape Crime Clock 2007

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, it is designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incident. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

<b>Total</b>	<b>1,342</b>	<b>100.0 %</b>
<b>Victim knows offender</b>		<b>76.8%</b>

1) Relationship of victims to offenders are counted for each victim to each offender in an incident. Since there are incidents where there are more than one suspect this may result in the totals for this table not matching incident totals seen elsewhere in this publication.

2) Victim was also an offender in the incident (used when both individuals are <14 years old).
