

## Requesting Verification of Licensure

Your written or verbal request [telephone calls to the KBVE office] works well.

It is important to notify the KBVE office if you have moved, otherwise, we may provide inaccurate and conflicting information to a recipient board, in the verification of licensure letter that is sent, on your behalf.

The information provided by KBVE will reflect your current contact information or what we have on file, KS license number, the issue date, expiration date, and whether or not any disciplinary action has been taken.

A verification of KS licensure or KS registration letter will include a raised seal and an original signature will be sent, to a recipient board or any other entity that you specify.

There is no charge for this service.
