

Working together for your future

Help us celebrate! The Kansas Public Employees 457(b) Deferred Compensation Plan has a new name: Tandem.

A few years ago the Deferred Compensation Plan came under the KPERS umbrella. With that came KPERS' commitment to plan oversight and resources, so we wanted the Plan to reflect that partnership. The name is new, but the plan, service provider and investments are still the same.

When you hear Tandem, we hope you'll think about partnership, like people riding a bicycle built for two. That's how KPERS and Tandem work together. Our mission is to provide you with tools to complement your KPERS pension for a more sound retirement.

Most people are not financial experts. Tandem can be your knowledgeable partner. From providing access to quality investments and investor education to keeping costs low, we put your interests first. As a KPERS savings plan, you can count on us to be a trusted partner on your path to retirement.

The relationship with KPERS sets Tandem apart from other ways you might save for retirement. We are in tune with helping you get the most from the way these two benefits work together. As fiduciaries, both KPERS and Tandem also provide the highest standard of care and accountability. We are in business for you.

Along with the new name, we have a new web address. Coming soon, visit www.tandem457.org to see our fresh look and the expanded information available. This fall, we'll also have a new video showcasing different members and their saving experience. Watch to see if any of your coworkers make a debut. ●

The new logo represents how Tandem fits together with KPERS. As in KPERS' own logo, it has the cottonwood leaf from the state tree of Kansas. This tree has tiny seeds, yet grows into one of the largest trees in North America. Just like savers who start with small contributions that can grow into a retirement income.
