Kansas Offender Registration Act

Kirk D. Thompson, Director Kansas Bureau of Investigation

The Kansas Offender Registration Act (KORA) is
intended to provide the public with information
regarding convicted offenders who could pose a
threat to the safety of their family and
community.

Updated August 2022

Duties of a Registered Offender

Offenders are required to register with the registering law enforcement agency within three days of entering any county to reside, maintain employment, or attend school.

Offenders must register four times a year in person at the registering law enforcement agency in any county where they reside, maintain employment, or attend school. After initial registration, they report in the month of their birthday and every third, sixth, and ninth month thereafter. They must be photographed, pay a registration fee of \$20, and complete the registration form with all information.

Offenders must register in person at the registering law enforcement agency within three days of changes to their registration information. This includes changes of residence, employment, and school attendance. This also includes changes to other registration information, such as vehicles owned or operated, tattoos, and license information.

If an offender is transient, they are required to register in person with the registering law enforcement agency every 30 days, or more often at the discretion of the registering law enforcement agency. Please note, they are only required to pay the registration fee at quarterly registrations. Additionally, transient offenders are to provide a list of places where they have slept and frequented during the period of time since they last registered. They are also to provide a list of places where they may be contacted and where they intend to sleep and frequent during the period of time prior to the next required registration date.

If an offender is convicted or adjudicated and required to register in another state, Kansas will honor the registration requirement. The duration of registration will either be the length of time the other state requires, or what would be required under the KORA for a comparable offense, whichever is longer.

If a registered offender is receiving inpatient treatment at any treatment facility, they must inform the treatment facility of their status as an offender. They must also inform the registering law enforcement agency of the county in which the treatment facility is located of their presence at the treatment facility and the expected duration of the treatment.

Offenders are required to renew any Kansas driver's license or state identification card annually. The driver's license and identification card shall indicate that they are a registered offender. If maintaining primary residence in Kansas, offenders must surrender all other driver's licenses and identification cards from other states, territories, and the District of Columbia.

Registered offenders must report to the registering law enforcement agency any and all: email addresses; online identities; membership in any and all personal web pages or online social networks; and internet screen names.

If a registered offender travels outside of the United States, they shall report in person to the registering law enforcement agency and provide written notice to the Kansas Bureau of Investigation 21 days prior to any such travel.

An expungement for the crime that requires registration does not terminate the registration obligation.

FAQ's

Are there any laws that mandate how close an offender can live to a school, daycare or community center?

- A. Kansas does not have any laws that mandate where an offender can or cannot live, work, or go to school. However this may be a condition of their supervision. The KBI does not monitor these restrictions.

Are there any laws that mandate with whom an offender can or cannot associate?

- A. Kansas does not have any laws that mandate who an offender can or cannot be around. However this may be a condition of an offender's supervision. The KBI does not monitor these restrictions.

What causes the duration of registration to be extended?

- A. Periods of incarceration and periods in which an offender is noncompliant with registration requirements do not count toward the duration of registration. If an offender incurs any periods of incarceration or noncompliance, their duration of registration will be extended to compensate for those periods.

Who do I contact if I suspect a sex offender has an account on a social networking site?

- A. You can report that information to the KBI through the KBI's public website and we will forward it to the law enforcement agency having jurisdiction over the offender for further investigation or you can report it directly to the social networking site.

Who can I contact if I have information, questions or concerns regarding a registered offender?

- A. You may contact the Sheriff's Office where the offender registers or the KBI Offender Registration Unit by telephone at (785) 296-2841 or by e-mail at registeredoffender@kbi.ks.gov
