
KANSAS CRIME INDEX

As Reported to Law Enforcement

2018

Kansas Bureau of Investigation

Incident Based Reporting Unit

SUMMARY OF FINDINGS

CALENDAR YEAR 2018

Total Index Crimes: The Federal Bureau of Investigation defines index crimes as those crimes listed in Appendix A. Information submitted by Kansas law enforcement agencies to the Kansas Bureau of Investigation (KBI) indicates that total reported index crimes are 1.1% below the 10-yr average. Total index crimes have seen a 7.5% increase since 2014. Note the heavy impact that the property index crimes play on the total index crimes.

Crime Index Rate: The crime index rate is defined as total index crimes per 1,000 in population. The crime index rate in Kansas dropped from 31.5 in 2017 to 31.4 in 2018.

Violent Index Crime: Violent index crimes are 16.5% above the 10-yr average. The violent crime index for Kansas is 4.2 offenses per 1,000 people. There was a 5.3% increase in 2018 over 2017. Note the heavy dependence that aggravated assault/battery plays on the violent index crime totals.

Property Index Crimes: Property index crimes are 3.5% below the 10-yr average. Property index crimes have declined considerably since 2007. After a slight increase in 2016 and 2017, the total property crimes declined 2.0% in 2018 over 2017. Note the heavy relationship that theft/larceny plays on the property index crime totals.

Murder: Murders are 15.0% above the 10-yr average. On a positive note, 2018 saw a 17.0% decline in murders as compared to 2017. While 2017 saw the largest number of murders in the ten year period, 21.1% of these incidents involved multiple murders. The percentage of murder incidents involving multiple victims dropped to 14.4% in 2018.

Finding a common circumstance surrounding these murders is difficult, as 21.2% of the reports indicated "unknown circumstance." Also, 26.7% of the murders list an unknown suspect. Domestic violence murders have averaged between 25-30% in recent years. In 2018, DV murders totaled 25.3% of the total. Arguments, as a circumstance, accounted for 30.8% of murders; drug deals totaled 6.9%; and gang activity/drive-by incidents made up 6.9% of the total murders in 2018.

Rape: Rapes are 20.3% above the 10-yr average. Reported rapes began a steady decline in 2008. In 2014, there was a slight uptick followed by an even larger increase in 2015. While 2016 saw a modest decline, the 2017 totals increased 7.9%. The upward trend continued in 2018 with a 10.9 % increase.

Robbery: Robberies are 0.8% above the 10-yr average. Historically, robbery offenses have been unpredictable. The year 2015 saw a 31.3% rise but was still only 1% above the 10-yr average. Meanwhile, 2016 saw a 3.8% drop from 2015 and 2017 a 3.2% increase from the prior year. This unpredictable trend continued in 2018 with an 8.5% decline.

Aggravated Assault/Battery: Aggravated assaults and batteries are 19.2% above the 10-yr average. Historically, the number of aggravated assault/battery offenses have demonstrated only modest changes from year to year. However, 2016 saw a 6.9% increase while 2017 saw a 6.6% increase. In 2018, the increase was 7.8%.

Burglary: Burglaries are 22.0% below the 10-yr average. The totals for 2018 were 7.0% below 2017 and were the lowest in over 15 years. Some criminologists have explained this decline on several fronts; primarily, the decline in resale value of typical stolen merchandise, such as electronics, does not make it profitable.

Larceny/Theft: Larceny/thefts are 1.4% below the 10-yr average. Theft offenses have generally been declining since 2008 with occasional moderate increases. In 2018, there was a 1.4% decrease.

Motor Vehicle Theft: Motor vehicle thefts are 20.6% above the 10-yr average. A ten year downward trend ended in 2016 with additional increases in 2017 (9.0%) and 2018 (1.5%). Some criminologists believe motor vehicle theft is replacing burglary as the main crime of opportunity due to a higher monetary return and lower probability of getting caught or injured during the commission of the crime.

Arson: Arsons are 13.8% below the 10-yr average. In 2018, the number of arsons increased by 4.2% over those reported in 2017. Arson figures are not calculated into violent or property indices, and are meant to stand on their own.

APPENDIX A

Index crimes are defined by the Federal Bureau of Investigation as the following offenses:

- Murder
- Rape
- Robbery
- Aggravated Assault/Battery
- Burglary
- Theft
- Motor Vehicle Theft

Methodology

The Kansas Bureau of Investigation (KBI) compiled the following 2018¹ statistical crime report based on data submitted by local and state law enforcement agencies prior to 5/1/2019.

The data represents the most accurate information available, reflecting crime as reported by law enforcement agencies through the Kansas Incident Based Reporting System (KIBRS).

This system enables crime information from standard offense and arrest reports to be reported by the responsible law enforcement agencies. This report does not represent all criminal incidents committed throughout the State of Kansas, as it is dependent on victims reporting crimes to law enforcement agencies and on those agencies submitting incident reports to the KBI.

This information is designed to support the *Crime in the U.S.* report published annually by the FBI. However, the FBI excludes certain data when fluctuations fall outside of their mathematical assumptions, resulting in different numbers than reported here. Also, the FBI deadline for submissions is March while the deadline for this publication is May.

Data are gathered by one of three ways:

1. Manual. Reports are mailed from the law enforcement agency to the KBI and the data are entered manually by KBI staff into KIBRS. These reports must pass a variety of validations to ensure accuracy and completeness in order to be accepted into KIBRS.

2. Electronic. Agencies may submit their reports directly into the system through an electronic gateway. These reports must also pass a series of validations in order to be accepted by the system.

3. Direct. Direct reporting, more commonly called summary reporting, involves an agency merely providing the KBI with a count for each crime. This form of reporting is dependent on the agency making proper classification of offenses and does not provide any additional information regarding a case.

The following factors should be considered when viewing this data:

1. This report distinguishes between agencies who have sent no data and those who sent incomplete data. If an agency submits offense reports for two months or less in the year, they are listed as not having submitted data. If an agency submits offense reports for nine months or less in the year, they are listed as did not submit complete data.
2. This report separates University Police from the county they reside and places them in a grouping of all Campus Police. This was done in order to provide consistency as compared to State Agencies and Tribal Police.
3. The following guidelines are used for purposes of counting offenses: Murders, Rapes, and Aggravated Assaults are counted per victim. Robberies, Burglaries, Thefts, and Arsons are counted per incident. Motor Vehicle Thefts are counted per vehicle stolen.

The final responsibility for data submissions rests with the individual law enforcement agency. Although the KBI makes every effort through its editing procedures, training practices, and correspondence to ensure the validity of the data it receives, the accuracy of the statistics depends primarily on the adherence of each contributor to the established standards of reporting.

NOTES: Percent of Population Not Covered: 2.63%

- 1) Data is as of 5/1/2019 from reports that have been submitted to the KBI and are counted by NIBRS standards.
- 2) Population estimates are received from the FBI on an annual basis. University population is from Kansas Board of Regents FTE enrollment.
- 3) Agency did not report sufficient data for accurate portrayal of these crimes. This may be from missing months of data or having significant number of uncorrected errors.
- 4) Agency did not submit offense or zero reports for at least 3 months of the year.
- 5) Agency reported using Summary data for 2018.
- 6) Agency only employs part time officers.
- 7) Arson is included in this report but is not included in Crime Index Totals.
- 8) Due to the low population numbers and the unique coverage area of Wyandotte County sheriff's office, the Index numbers are not calculated for this agency.
- 9) The 2018 submissions were significantly lower than previous years.
- 10) Murders for this agency were counted using Supplemental Homicide Reports.
- 11) Total population does not include number for agencies that did not submit any data in 2018. The entire state estimated population for 2018 is 3,008,200.
- 12) Printing note: When printing hardcopies of this document, some printers may need to check mark the "Choose paper source by PDF page size" button for proper pagination.
