RESOURCES FOR VICTIMS 124

Introduction

The Kansas Bureau of Investigation (KBI) compiled the following report on domestic violence, rape, sexual violence, and stalking for 2025. The data represents the most accurate information available, reflecting domestic violence, rape, sexual battery, sodomy, and stalking incidents as reported by law enforcement agencies through the Kansas Incident Based Reporting System (KIBRS). This system enables crime information from standard offense and arrest reports to be entered manually or submitted electronically from Kansas law enforcement agencies.

This report is intended to assist agencies in strengthening the criminal justice system, which holds offenders accountable for their actions and provides resources to help respond to these crimes.

This report does not claim to represent all domestic violence incidents, sexually violent incidents, or stalking offenses committed throughout the State of Kansas. It is dependent on victims reporting crimes to law enforcement and those agencies submitting incident reports to the KBI. Only domestic violence, sexual violence, and stalking incident and arrest reports that were submitted to the KBI were counted for this report.

Since 1992, all Kansas law enforcement agencies are mandated to make arrests for domestic violence incidents when there is probable cause that a crime was committed. Officers are also required to fill out a Kansas Standard Offense Report for every domestic violence incident, whether an arrest was made or not. Each law enforcement agency is required to have a written policy describing its protocol for addressing domestic violence incidents.

Effective July of 2011, the State Legislature passed a bill creating a universal definition for domestic violence incidents. This definition is required by statute to be used by all Kansas law enforcement agencies. The definition can be found on page 5 of this publication.

OFFENSES

The domestic violence section of this report includes, but is not limited to, offenses that involve murder, assault, aggravated assault, assault of a law enforcement officer, battery, aggravated battery, battery against a law enforcement officer, aggravated battery against a law enforcement officer, rape, theft, unlawful deprivation of property, burglary, and aggravated burglary. Some of these offenses may not meet the definition of domestic violence but are included because there were additional offenses within an incident that involved a domestic violence offense.

Introduction

DUAL ARRESTS

The domestic violence section of this report includes dual arrests, which refers to cases where more than one person was arrested for the same domestic violence incident. In some cases, this is the result of an incident where the primary aggressor cannot be determined, so both parties involved are arrested. There may be cases in which multiple arrests were made at the incident because a third party intervened. By factoring in dual arrests, a more accurate percentage can be reported as agencies may have reported more arrests than incidents in a particular year.

CLEARANCES VS ARRESTS

Several references to arrest rates are made throughout this publication. Exceptional clearances are methods to close a case, other than an arrest. Examples of an exceptional clearance are the death of the offender, the victim refuses to testify at the prosecution level, extradition is denied, prosecution is denied, or a juvenile is released to a parent.

TABLES AND GRAPHS

Several tables and graphs regarding domestic violence, sexually violent crimes, and stalking are included in this report. Some domestic violence, sexually violent incidents, and stalking incidents may have had more than one offense, victim, offender, type of weapon, or victim-offender relationship. Some reports were not filled out completely, making detailed information on the incident unknown or unavailable. For this reason, the totals for each section will not always match.

To most accurately represent domestic violence, sexual violence, and stalking, the information for this report was recorded as it was reported to the KBI by law enforcement agencies as of May 1, 2026.

ROUNDING

The percentage totals on some tables may not always equal 100% due to rounding.

AGENCIES NOT REPORTING COMPLETE DATA

This report distinguishes between agencies who have sent no data and those who have sent incomplete data. If an agency submits offense reports for two months or less in the year, they are listed as not having submitted data. If an agency submits offense reports for nine months or less in the year, they are listed as not having submitted complete data.

Introduction

RAPE DEFINITION

In 2013, the Federal Bureau of Investigation changed their definition of rape to include sodomy and sexual assault. This report continues to use the historical definition as defined on page 69. However, separate sections have been included for criminal sodomy and sexual assault.

DATA GROUPING DEFINITIONS

Some fields have been combined within charts to show a more statistically relevant view of detailed data. These groupings use the following definitions:

- Significant other – spouse, ex-spouse, common law spouse, boyfriend/girlfriend, ex-boyfriend/girlfriend, and same sex relationships
- Family member – parent, child, sibling, grandparent, grandchild, in-law, step and foster parent/child/sibling, other family member, child of boyfriend/girlfriend, victim was boyfriend/girlfriend of suspect's parent
- Otherwise known – acquaintance, friend, roommate, neighbor, babysittee, employer, employee, co-worker, and otherwise known
- Hospitality – tavern/bar, restaurant, hotel/motel/inn, and casino
- Workplace – employee, employer, co-worker
- Time of Day – Day=6am to 2pm, Evening=2pm to 10pm, Night=10pm to 6am
- Type of Injury – Major injuries are those not listed as “apparent minor injury” or “none”

Domestic Violence

In 1991, the Kansas Legislature enacted mandates that required all Kansas law enforcement agencies to adopt written policies regarding their procedures for responding to domestic violence incidents within their jurisdictions. Each law enforcement policy must include a directive that officers who have probable cause that a crime was committed at a domestic violence incident “shall make an arrest.” All standard offense reports were required to be submitted to the KBI beginning in January 1992, whether an arrest was made or not. Since this legislative action, Kansas law enforcement agencies have increased arrest rates for domestic-violence-related crimes from 37.1% in 1992 to 48.5% in 2025.

Victim and offender characteristics for domestic violence have not changed drastically. Still, the average victim is a female between the ages of 20 and 39. The average offender is a male between the ages of 20 and 39 and is most often the boyfriend/girlfriend of the victim. Saturdays and Sundays are the days when domestic violence incidents are most likely to occur. Incidents are most likely to occur between the hours of 6 p.m. and midnight.

Domestic violence can be defined as any verbal and/or physical abuse ranging from simple assault to murder. In 2025, 50.3% of all domestic violence offenses involved the criminal offense of battery. Battery is defined as *“intentionally or recklessly causing bodily harm to another person or intentionally causing physical contact with another person when done in a rude, insulting or angry manner.”* In 2001, the Kansas Legislature enacted the *“domestic battery”* statute which is *“(1) intentionally or recklessly causing bodily harm by a family or household member against a family or household member; or (2) intentionally causing physical contact with a family or household member by a family or household member when done in a rude, insulting or angry manner.”*

Most domestic violence offenders use some type of bodily force against their victims and most use their hands, fists, or feet as personal weapons. An incident of domestic violence most often occurs at home. Almost half (49.5%) of all victims receive visible injuries.

Domestic Violence

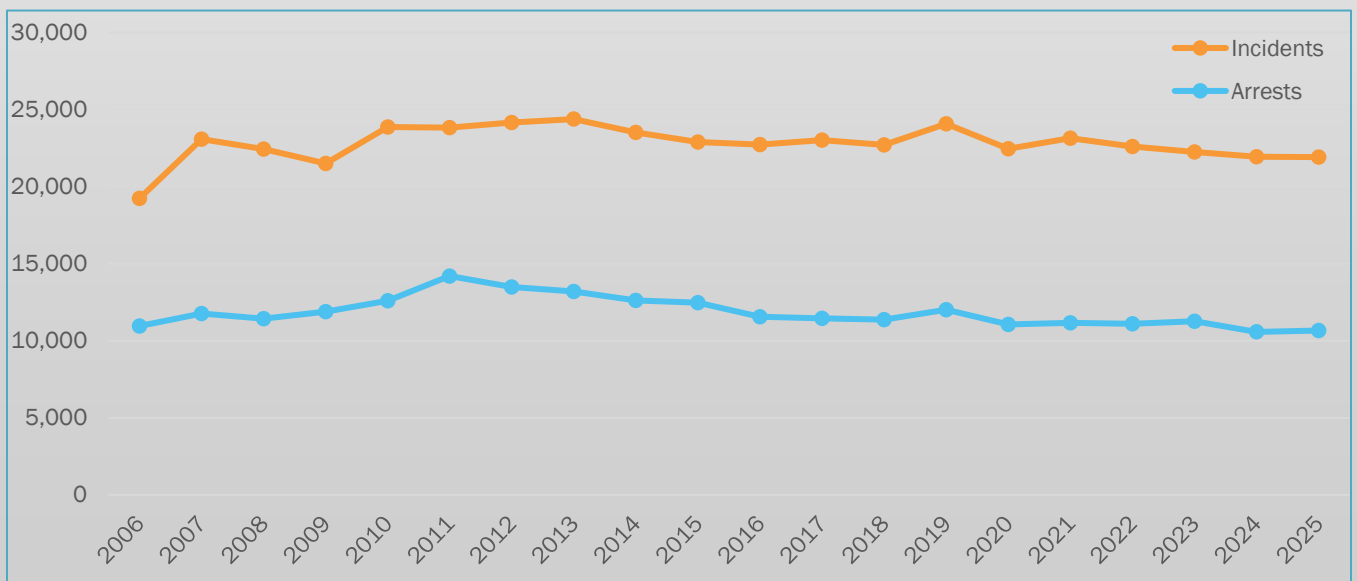

"Domestic violence" means an act or threatened act of violence against a person with whom the offender is involved or has been involved in a dating relationship, or an act or threatened act of violence against a family or household member by a family or household member. Domestic violence also includes any other crime committed against a person or against property, or any municipal ordinance violation against a person or against property, when directed against a person with whom the offender is involved or has been involved in a dating relationship or when directed against a family or household member by a family or household member. For the purposes of this definition:

(1) "Dating relationship" means a social relationship of a romantic nature. In addition to any other factors the court deems relevant, the trier of fact may consider the following when making a determination of whether a relationship exists or existed: nature of the relationship, length of time the relationship existed, frequency of interaction between the parties, and time since termination of the relationship, if applicable.

(2) "Family or household member" means persons 18 years of age or older who are spouses, former spouses, parents or stepparents and children or stepchildren, and persons who are presently residing together or have resided together in the past, and persons who have a child in common, regardless of whether they have been married or have lived together at any time. Family or household member also includes a man and woman if the woman is pregnant and the man is alleged to be the father, regardless of whether they have been married or have lived together at any time.

Kansas Domestic Violence Incident and Arrest Trend

Year	Number of Incidents	Percent of Change	Incidents per / 1,000 Population	Number of Incidents with Arrests
2005	19,222	6.5%	7.0	10,951

2025 Domestic Violence Crime Clock

One domestic violence murder was reported every 11 days, 1 hour, 27 minutes, and 16 seconds.

One domestic violence incident was reported every 22 minutes and 28 seconds.

Law enforcement made one domestic violence arrest every 46 minutes and 20 seconds.

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, they are designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incidents. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

Protection from Abuse Act

K.S.A. 60-3101 through 60-3112

The Kansas Legislature created the Protection from Abuse Act (PFA) in 1979. According to the statute, *“This act shall be liberally construed to promote the protection of victims of domestic violence from bodily injury or threats of bodily injury and to facilitate access to judicial protection for the victims, whether represented by counsel or proceeding pro se.”*

A protection order is a court order for the purpose of preventing further violent or threatening behavior. The PFA instructs a specific individual to refrain from having contact with another individual. Any district court shall have jurisdiction over the proceedings in obtaining an order. A person who is seeking relief under this act may obtain a petition from the clerk of the district court or from a domestic violence program.

A person seeking relief under this act must have lived with the abuser, either presently or in the past, or have a child in common. A parent or an adult residing with a minor child may seek a petition on behalf of the minor child. As of July 1, 2002, persons in dating relationships also can apply for a protection order. Once an order is filed with the court, a temporary order is issued, and a hearing is set within 20 days. The final order can be issued for up to one year. No more than two orders can be filed within one year.

The 2006 Kansas Legislature passed two bills designed to assist those in need of protective orders. The first bill fills the gap of previous statutes and considers a violation of the PFA act to include contacting the victim while offender is incarcerated. The second took effect January 1, 2007, and allows persons attempting to escape a domestic violence situation to obtain a confidential address from the Secretary of State’s office to use as a substitute legal mailing address.

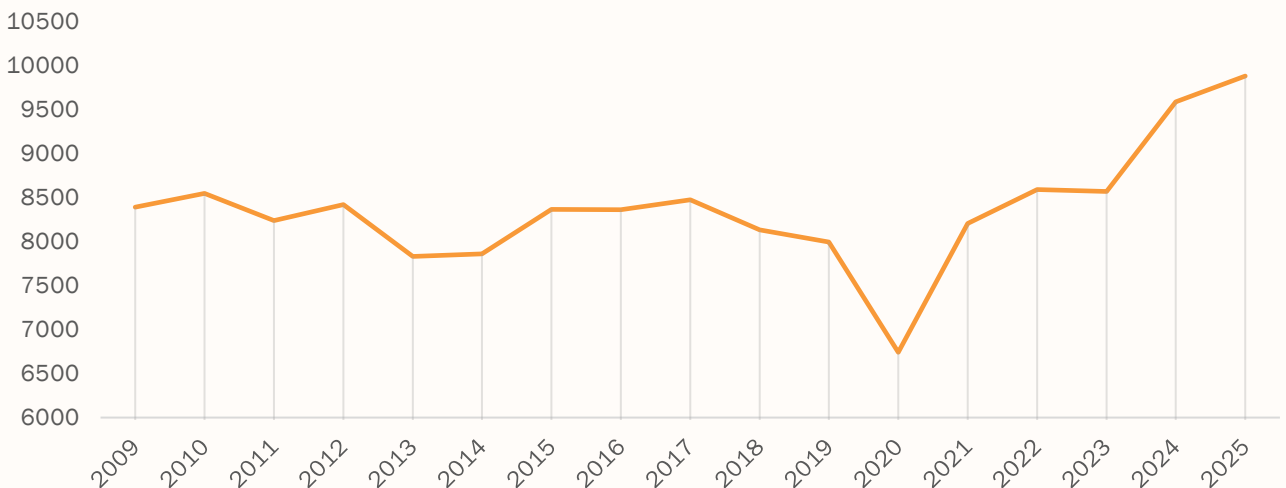

The following information reflects the number of PFA orders filed with Kansas district courts and reported to the Kansas Office of Judicial Administration.

Protection From Stalking Act

K.S.A. 60-31a01 through 60-31a09

The Kansas Legislature created the Protection from Stalking Act (PFS) during the 2002 session. The act is to be *“liberally construed to protect victims of stalking and to facilitate access to judicial protection for stalking victims, whether represented by counsel or proceedings pro se.”* The PFS allows the court to refrain a defendant from harassing, telephoning, contacting, or otherwise communicating with the victim. A Protection from Stalking Order is a court order for the purpose of preventing stalking behavior against the victim. A person seeking relief under this act may obtain an order from the clerk of the district court in the county where the stalking occurred. Once an order is filed with the court, a temporary order is issued, and a hearing is set within 20 days. A final order may be issued for a period of one year. However, *“upon motion by the plaintiff, such a period may be extended for an additional year.”*

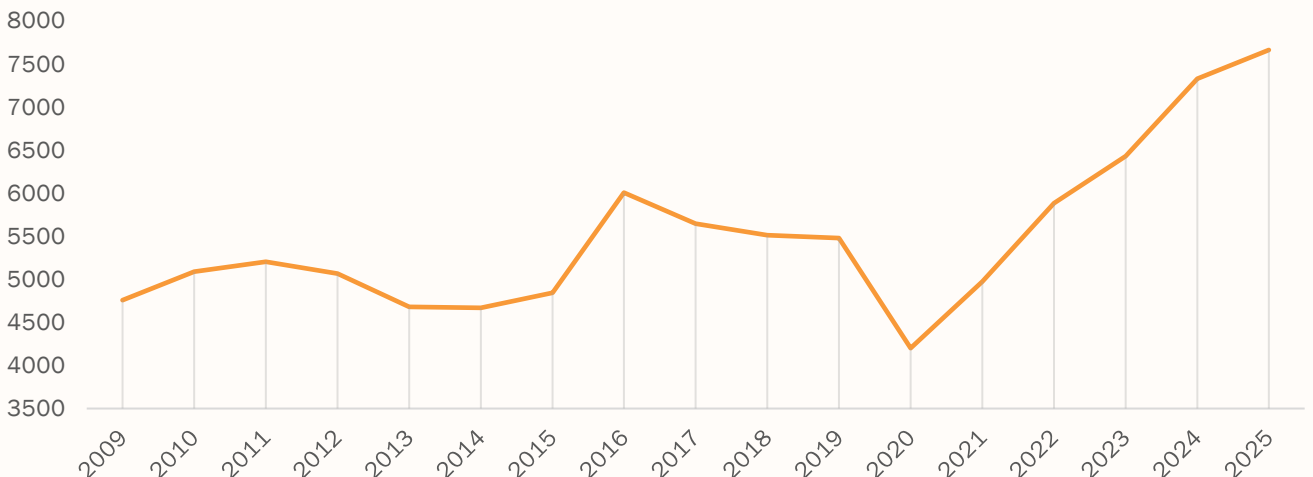

The following information reports the number of PFS orders filed with Kansas district courts and reported to the Kansas Office of Judicial Administration.

Stalking

Stalking is an exercise of control and power over another individual or group. The variation in stalking behavior ranges from hang-up phone calls to more direct threats toward a victim. The likelihood of injury increases when the stalking behavior escalates over time.

In 2008, the Kansas Legislature amended the definition of Stalking. This statutory change was reflected in the large increase of offenses reported since 2009.

Stalking is defined as:

(1) *“Intentionally or recklessly engaging in a course of conduct targeted at a specific person which would cause a reasonable person in the circumstances of the targeted person to fear for such person’s safety, or the safety of a member of such person’s immediate family and the targeted person is actually placed in such fear; or*

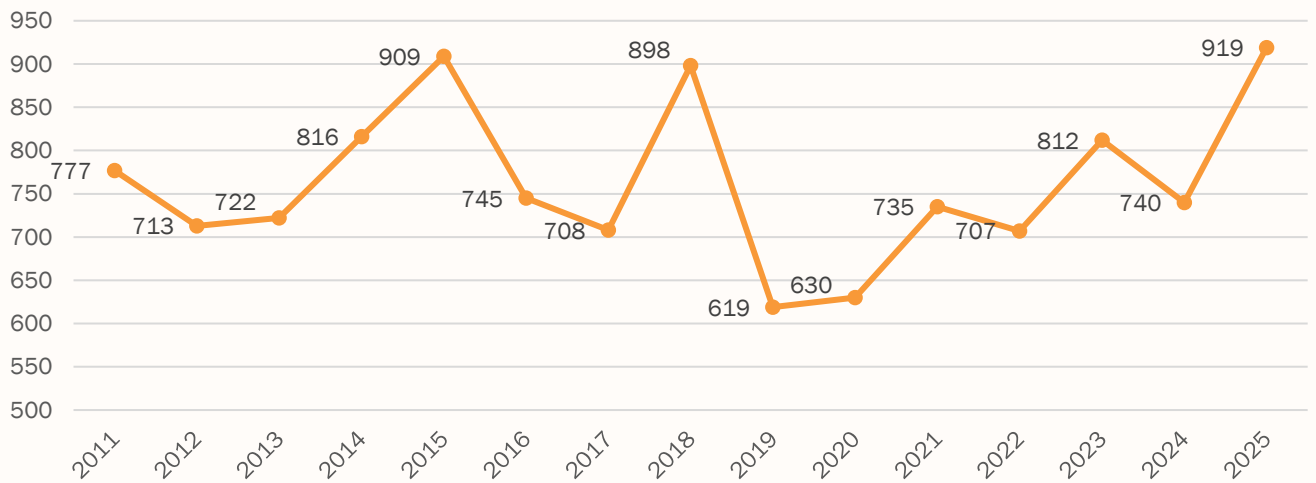

(2) intentionally engaging in a course of conduct targeted at a specific person which the individual knows will place the targeted person in fear for such person’s safety or the safety of a member of such person’s immediate family; or

(3) after being served with, or otherwise provided notice of, any protective order included in K.S.A. 21-3843, prior to its repeal or K.S.A. 2011 Supp. 21-5924, and amendments thereto, that prohibits contact with a targeted person, recklessly engaging in at least one act listed in subsection (f)(1) that violates the provisions of the order and would cause a reasonable person to fear for such person's safety, or the safety of a member of such person's immediate family and the targeted person is actually placed in such fear.

Stalking Trends 2011-2025

Year	Incidents	Percent of Change
2011	777	31.3%

2024	740	-8.9%
2025	919	24.2%

Stalking Trends 2011-2025

2025 Stalking Crime Clock

One stalking incident
was reported every
9 hours,
31 minutes,
and 56 seconds.

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, they are designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incidents. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

Rape

Rape: K.S.A. 21-5503

K.S.A. 21-5503, (a) Rape is:

(1) Knowingly engaging in sexual intercourse with a victim who does not consent to the sexual intercourse under any of the following circumstances:

- (A) When the victim is overcome by force or fear; or
- (B) when the victim is unconscious or physically powerless;

(2) Knowingly engaging in sexual intercourse with a victim when the victim is incapable of giving consent because of mental deficiency or disease, or when the victim is incapable of giving consent because of the effect of any alcoholic liquor, narcotic, drug or other substance, which condition was known by the offender or was reasonably apparent to the offender;

(3) sexual intercourse with a child who is under 14 years of age;

(4) sexual intercourse with a victim when the victim's consent was obtained through a knowing misrepresentation made by the offender that the sexual intercourse was a medically or therapeutically necessary procedure; or

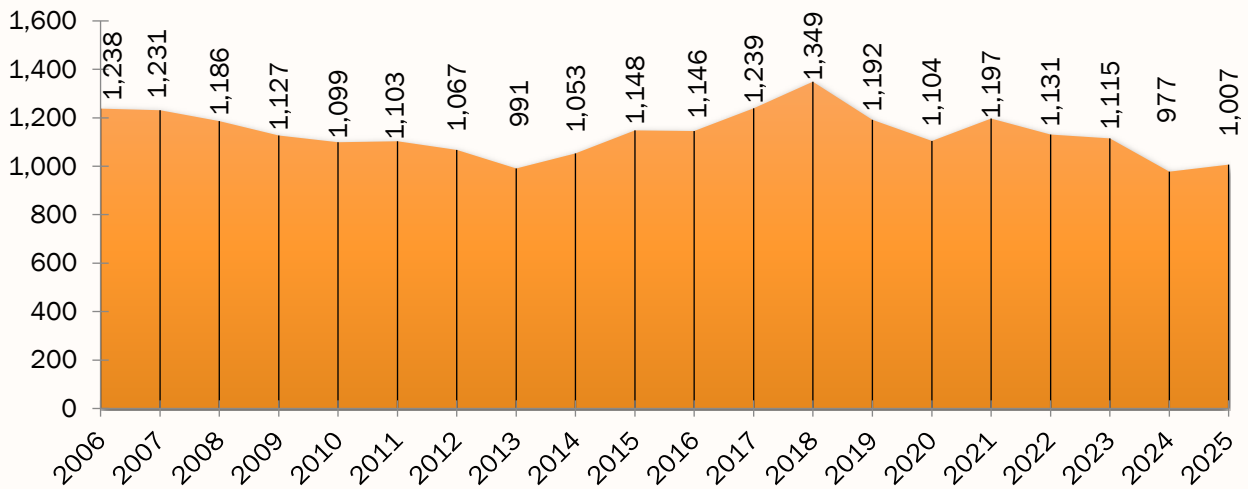

(5) sexual intercourse with a victim when the victim's consent was obtained through a knowing misrepresentation made by the offender that the sexual intercourse was a legally required procedure within the scope of the offender's authority.

The number of rape incidents reported to Kansas law enforcement increased by 3.1% in 2025 from the number reported in 2024. During 2025, approximately 11.0% of all reported rape incidents in Kansas resulted in an arrest, down from 13.3% that were cleared by arrest for the same time period in 2024. This is an arrest rate, not a clearance rate. Some cases may have been cleared by exceptional means (ex: death of offender or victim refusing to testify). This accounts for a small portion of rape offenders when one considers that 78.2% of the offenders were reported to be known to the victim. The details of the relationships can be found on page 91.

Of the rape incidents reported to law enforcement agencies, the rape victim is usually a female (97.2%) who is less than 25 years of age (60.4%). The rape offender is most often a male (88.7%) between the ages of 15 and 24 (29.9%). The crime of rape is spread-out relatively even throughout the week with Saturdays being the highest at 18.6%. Incidents are most likely to occur between the hours of midnight and 2:00 a.m.

Rape Incidents 2006-2025

Year	Incidents	Percent of Change	Incidents per 1,000 Population
2006	1,238	12.6%	0.45
2007	1,231	-0.6%	0.44
2008	1,186	-3.7%	0.42
2009	1,127	-5.0%	0.40

2025	1,007	3.1%	0.33

2025 Rape Crime Clock

One rape
was reported every
8 hours,
41 minutes,
and 57 seconds.

Law enforcement made
one rape arrest
every 3 days,
6 hours,
55 minutes,
and 9 seconds.

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, they are designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incidents. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

Criminal Sodomy

Criminal Sodomy: K.S.A. 21-5504

The Kansas criminal sodomy statute does not distinguish the gender of a sodomy victim, therefore, offenses involving both male and female victims were reported by law enforcement agencies.

K.S.A. 21-5504, (a) Criminal sodomy is:

- (1) Sodomy between persons who are 16 or more years of age and members of the same sex;
- (2) sodomy between a person and an animal;
- (3) sodomy with a child who is 14 or more years of age but less than 16 years of age; or
- (4) causing a child 14 or more years of age but less than 16 years of age to engage in sodomy with any person or animal.

(b) Aggravated criminal sodomy is:

- (1) Sodomy with a child who is under 14 years of age;
- (2) causing a child under 14 years of age to engage in sodomy with any person or an animal; or
- (3) sodomy with a victim who does not consent to the sodomy or causing a victim, without the victim's consent, to engage in sodomy with any person or an animal under any of the following circumstances:
 - (A) When the victim is overcome by force or fear;
 - (B) when the victim is unconscious or physically powerless; or
 - (C) when the victim is incapable of giving consent because of mental deficiency or disease, or when the victim is incapable of giving consent because of the effect of any alcoholic liquor, narcotic, drug or other substance, which condition was known by, or was reasonably apparent to the offender.

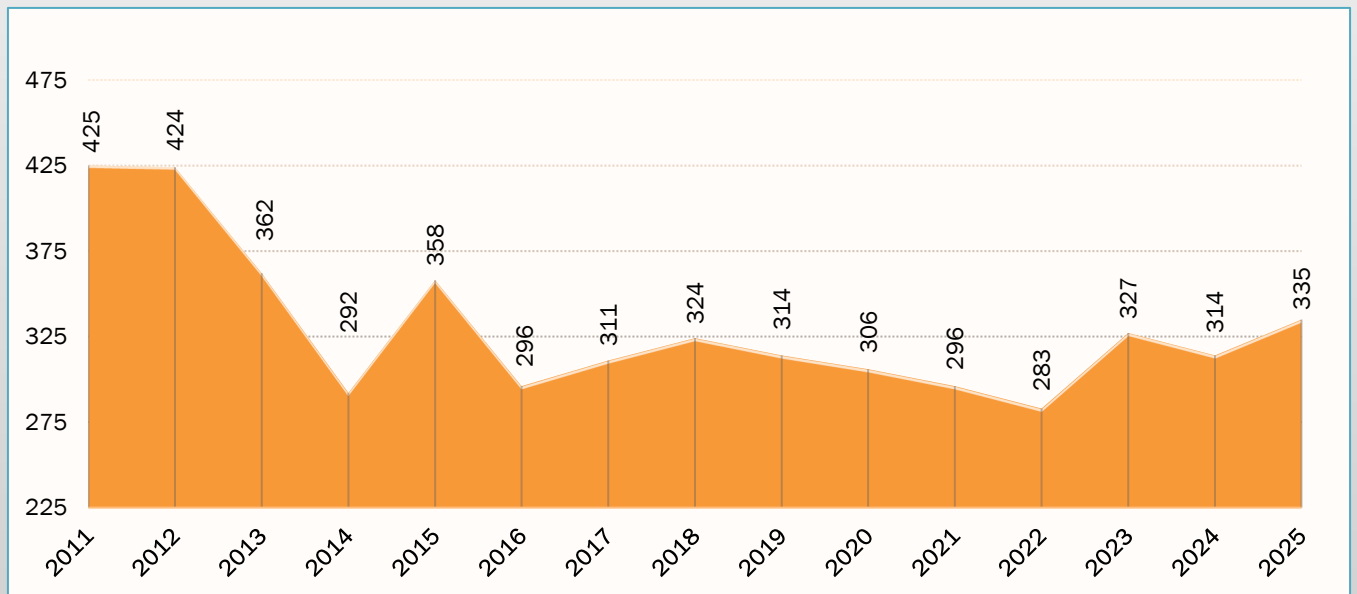

In 2025, the number of criminal sodomy offenses reported to Kansas law enforcement increased 6.7% from 2024.

Of the incidents reported to law enforcement agencies, the sodomy victim is usually a female (63.2%) who is less than 20 years of age (55.0%). The criminal sodomy offender is most often a male (82.1%) between the ages of 10 and 24 (39.9%). The crime of sodomy is spread out through the week but happens the most often on Wednesdays (16.7%). Incidents are most likely to occur between the hours of midnight and 2:00 a.m.

Criminal Sodomy Trends

2011-2025

Year	Incidents	Percent of Change
2011	425	9.0%
2012	424	-0.2%
2013	362	-14.6%

2023	327	15.5%
2024	314	-4.0%
2025	335	6.7%

2025 Criminal Sodomy Crime Clock

One criminal sodomy
was reported every
1 day,
2 hours,
9 minutes,
and 1 second.

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, they are designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incidents. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

Sexual Battery

Sexual Battery: K.S.A. 21-5505 thru 21-5506

K.S.A. 21-5505, (a) Sexual battery is the touching of a victim who is not the spouse of the offender, who is 16 or more years of age and who does not consent thereto, with the intent to arouse or satisfy the sexual desires of the offender or another.

(b) Aggravated sexual battery is the touching of a victim who is 16 or more years of age and who does not consent thereto with the intent to arouse or satisfy the sexual desires of the offender or another and under any of the following circumstances:

- (1) When the victim is overcome by force or fear;
- (2) when the victim is unconscious or physically powerless; or
- (3) when the victim is incapable of giving consent because of mental deficiency or disease, or when the victim is incapable of giving consent because of the effect of any alcoholic liquor, narcotic, drug or other substance, which condition was known by, or was reasonably apparent to the offender.

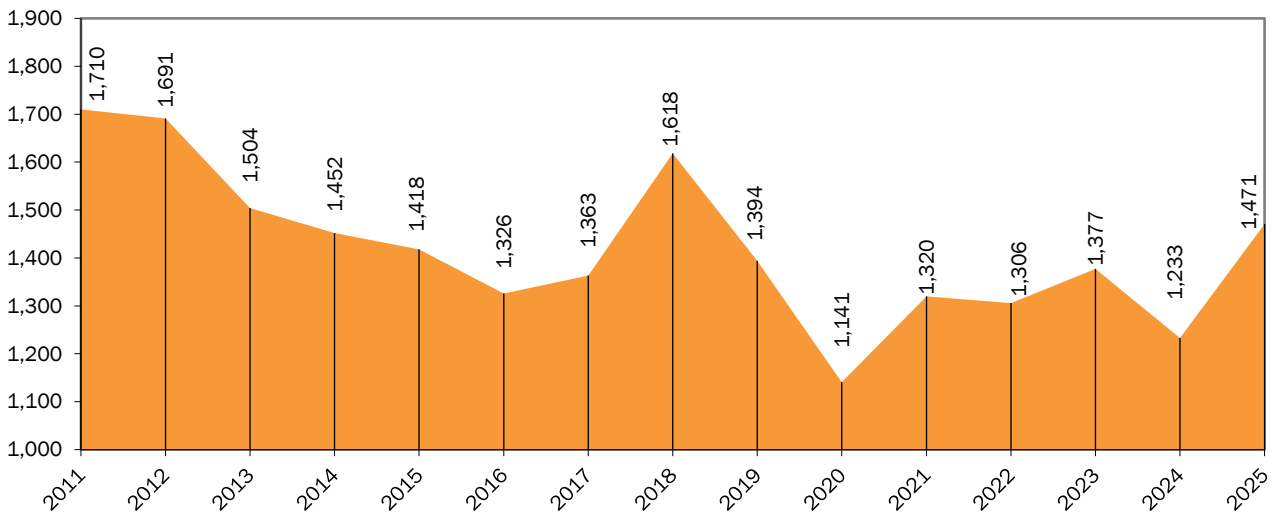

Sexual batteries reported to Kansas law enforcement increased 19.3 % in 2025 from the number reported in 2024.

Of the sexual battery incidents reported to law enforcement agencies, the victim is usually a female (82.7%) who is less than 20 years of age (66.5%). The sexual battery offender is most often a male (82.3%) between the ages of 10 and 19 (30.7%). The crime of sexual battery occurs in similar numbers each day of the week, with Wednesday being highest. Incidents occur equally throughout the day but are most likely to occur between the hours of midnight and 2:00 a.m.

Sexual Battery Trends

2011-2025

Year	Incidents	Percent of Change
2011	1,710	-2.1%
2012	1,691	-1.1%

2025	1,471	19.3%

2025 Sexual Battery Crime Clock

One sexual battery
was reported every
5 hours,
57 minutes,
and 18 seconds.

These crime clocks should be viewed with care. Being the most aggregate representation of crime data, they are designed to convey the annual crime experience by showing the relative frequency of occurrence of crime incidents. This mode of display should not be taken to imply a regularity in the commission of these incidents; rather, it represents the annual ratio of crime to fixed time intervals.

Resources for Victims

If you are in immediate danger or in a threatening situation, please call 911.

- **The Kansas Crisis Hotline: 1-888-END-ABUSE (1-888-363-2287)** is a toll-free, 24-hour statewide crisis hotline developed to link victims of domestic violence, sexual assault, and stalking to crisis programs across Kansas.

The Hotline offers:

- Confidential, non-judgmental support
- Crisis intervention to help you identify problems and possible solutions, including safety plans for emergencies
- Referral to community programs or women's shelters for long term support
- Information about domestic violence, sexual assault, stalking, child abuse, and prevention programs

- **Attorney General's Office - Victims' Services Division: 1-800-828-9745** assists local crime victim and witness assistance programs and assists individuals who have been the victims of crime or witnessed criminal conduct.

The Victims Services Division seeks to ensure that Kansas crime victims:

- Are aware of their rights
- Have their rights protected
- Are aware of the services available to them
- Have access to quality services.

- **Kansas Coalition Against Sexual and Domestic Violence (KCSDV)** is a network of statewide advocacy programs whose primary goals are the prevention and elimination of sexual and domestic violence through providing support and safety for all victims of sexual and domestic violence and stalking, with primary focus on women and their children; direct services; public awareness and education; advocacy for victims; comprehensive prevention; and social change efforts.

Their website is www.kcsdv.org.
