- Warning statement posted in easy view

CAUTION: ULTRAVIOLET RADIATION
Repeated exposure to ultraviolet radiation may cause skin damage characterized by wrinkling, dryness, fragility and skin cancer.

Failure to use protective eyewear may result in severe burns or permanent injury to the eyes.

Medications or cosmetics may increase your sensitivity to ultraviolet radiation. Consult a physician before using a tanning device if you are using medications, have a history of skin problems or believe you are especially sensitive to sunlight. Pregnant women or women taking oral contraceptives who use this product may develop discolored skin.

IF YOU DO NOT TAN IN THE SUN, YOU WILL NOT TAN FROM USE OF AN ULTRAVIOLET DEVICE OR SUNLAMP

Consumer Warning Statements

- Written warning statement given to each consumer

- (a) Failure to use the eye protection provided to the customer by the tanning facility may result in damage to the eyes;
- (b) overexposure to ultraviolet radiation causes burns;
- (c) repeated exposure to ultraviolet radiation may result in premature aging of the skin and skin cancer;
- (d) abnormal skin sensitivity or burning may be caused by reactions of ultraviolet radiation to certain: Foods; cosmetics; or medications, including: Tranquilizers; diuretics; antibiotics; high blood pressure medicines; or birth control pills; and
- (e) any person taking a prescription or over-the-counter drug should consult a physician before using a tanning device.

Eyewear

- Provided by facility (either for sale, for loan or for free)
- Disinfected by cleaning with soap and water and then immersing in disinfectant
- Only the tanning device operator disinfects eyewear
- Disposable eyewear placed in covered trash can

Towels

- Clean - no storage requirement
- Dirty - placed in closed container; container does not have to be labeled

Tanning Rooms

- Exposure schedule posted for each device
- Warning statement posted in easy view in each room

CAUTION: ULTRAVIOLET RADIATION

1. Follow the manufacturer's instructions for use of this device.

2. Avoid too frequent or lengthy exposure. As with natural sunlight, exposure can cause serious eye and skin injuries and allergic reactions. Repeated exposure may cause skin cancer.

3. Wear protective eyewear. Failure to use protective eyewear may result in severe burns or permanent damage to the eyes.

4. Do not sunbathe before or after exposure to ultraviolet radiation.

5. Medications or cosmetics may increase your sensitivity to ultraviolet radiation. Consult a physician before using a sunlamp if you are using medication, have a history of skin problems or believe you are especially sensitive to sunlight. Pregnant women or women using oral contraceptives who use this product may develop discolored skin.

IF YOU DO NOT TAN IN THE SUN, YOU WILL NOT TAN FROM USE OF THIS DEVICE
