

Kansas Board of Cosmetology

714 SW Jackson Suite 100 Topeka, KS 66603

Telephone: (785) 296-3155 Fax: (785) 296-3002

Email: Kboc@ks.gov Website: www.kansas.gov/kboc

Following is the application for a license to conduct a **School of Esthetics**. Please complete the application and return to the Board with **\$150** fee to this office at least 60 days before the proposed date of operation.

Please include with your application the following:

- 1) A descriptive floor plan to scale which demonstrates compliance With K.A.R. 69-3-3;
- 2) a copy of curriculum outline;
- 3) a daily class schedule for full time and part time students;
- 4) an inventory of all instructional equipment to be provided and used in the operation of the school; and
- 5) a copy of the written enrollment agreement between the school and the student, including the refund policy and the rules and regulations of the school.
- 6) Include a legible photocopy of your current government issued photo identification and one of the following:

Ownership Type 1-4:

Federal Employer Identification Number (FEIN): Submit a signed W-9 Form

Ownership Type 5:

*Social Security (SS) Number: Submit a legible photocopy of your SS card. **Each owner listed must include a legible photocopy of their current government issued photo identification and social security card. The name on the ID and social security card must match.**

* *Disclosure is mandatory for licensure and authorized by K.S.A. 74-148 and K.S.A. 74-139. It is used to verify identity and license individuals lawfully residing in the U.S. Upon request of the director of taxation, each such authority shall provide to the director of taxation a listing of all such applicants, along with such applicant's social security number and address.

Answers to the competency questions in this application can be found in the by reviewing the School Administrative Guide available on the website Resources page and the applicable forms and applications available on the website forms and applications page.

Please be advised, the Board does not have the authority to dictate what business name you use for your licensure. Choosing a name that implies services outside the scope of your licensure or that is subject to copyright could result in litigation. Additionally, such use could be interpreted as misleading and/or deceptive and could result in discipline. If you have further questions or concerns about choosing a business name, please seek counsel from a licensed attorney.

8. All apprentice licenses must be posted in a conspicuous place.

9. All of the apprentice licenses do not need to be current.

10. Do all non-disinfected/soiled instruments/equipment need to be appropriately stored in a properly labeled, covered container?

11. Instruments and equipment do not need to be cleansed with soap/detergent and water prior to disinfecting.

12. Disinfected instruments need to be stored in a clean, labeled, enclosed cabinet or covered container reserved for clean instruments only.

13. Do single-use supplies/instruments or those supplies/instruments that cannot be disinfected, need to be disposed of in a covered waste receptacle immediately after use on the client.

14. Implements and equipment don't need to be fully submerged in disinfectant.

15. Disinfectant containers need to be covered and labeled.

16. Do disinfectant and bleach solutions need to be changed daily or more often if the disinfectant or bleach solution becomes visibly cloudy or dirty?

17. Disinfectant means an EPA-registered disinfecting solution that is bactericidal, virucidal, and fungicidal. Disinfectants can be in the form of a liquid concentrate, wipe, spray, or foam

18. You cannot use bleach instead of an EPA-registered and hospital grade with demonstrated bactericidal, fungicidal, and virucidal activity.

19. For instruments/equipment that may come in contact with blood or other body fluids, you should not have a Separate EPA registered, hospital grade disinfectant with demonstrated bactericidal, fungicidal, and virucidal activity or a bleach mixture already prepared within the last 24 hours, you should prepare this mixture at the time of the instance of exposure.

20. The disinfectant solutions should have debris and dirt from disinfecting the implements and equipment.

21. Do you need to follow the manufacturer's instructions in the use of the disinfectant(s)?

22. Can you have to have the containers in the original manufacturer-labeled container(s) **OR** the MSDS for the disinfectant(s) available in the school?

23. You need to have unused protective gloves available in the school for use by the student should there be exposure to blood or body fluids.

24. Do electrical instruments need to be cleansed by removing all foreign matter prior to disinfecting with an EPA-registered disinfectant?

25. Disinfected electrical instruments do not need to be stored in clean, labeled covered containers.

26. Each student needs wash their hands with soap and water or use any equally effective cleaning solution before serving each client.

27. Soiled towels, robes and/or linens only need to be deposited in a closed labeled (dirty/soiled) receptacle if they are visibly soiled.

28. Do soiled towels, robes and/or linens need to be cleaned in a washing machine with detergent and hot water.

29. Clean towels, robes and/or linens do not need to be stored in closed labeled (clean) cabinets or containers, they are obviously clean so they can be folded and kept in the open.

30. Does each cape need to be cleaned or disinfected after each service?

31. The hand washing sink or shampoo bowl needs to be kept in a sanitary condition.

32. Do you need to have sufficient hot and cold running water with a soap dispenser and disposable towels/air dryer?

33. Do the client service tables need to be cleaned and disinfected first then properly prepared or covered with the appropriate barrier for each client?

34. You don't need to worry about the students not dispensing the products correctly, it doesn't matter if the product gets contaminated.

35. The products need to be properly labeled and in clean closed containers.

36. There only needs to be at least one restroom, of the two required, that is in working order and maintained in a sanitary condition.

37. Do the hand washing sinks need to have soap dispensers, disposable towels/air dryer and sufficient hot and cold Running water?

38. All bottles need to be labeled to disclose contents.

39. All products shall be kept in labeled and closed containers. Each container shall be kept clean so that the label is legible. Each container shall be closed when not in use

40. Can you have instruments, tools or devices that remove living layers of skin, calluses or skin blemishes in the school?

41. You don't need to make sure the floor stays free of excessive hair and debris.

42. Some trash containers in the work area do not need to be covered.

43. You need to make sure that excessive accumulation is removed.

44. Do the walls, ceilings, floor coverings, equipment, workstations, including the back bar, and furniture need to be kept clean and in good repair?

45. You need to have sufficient ventilation to remove or exhaust fumes, vapor or dust to prevent hazardous Conditions.

46. Can you have neck/nail dusters, smoking, eating, and food preparation in the school?

47. You can have animals that are not assistance dogs in the school.

The following are short answer questions. Please write N/A if the question is not applicable to your school license type.
